

# STUDENTS:

## BE PART OF THE REGENERON TEAM TURNING SCIENCE INTO MEDICINE.

Regeneron is offering summer internship opportunities for students to gain hands-on, real world experience in the biotechnology industry. We seek students who are passionate about pursuing a career in research, clinical & drug development, manufacturing and/or business. We have exciting internship opportunities in our Tarrytown, Sleepy Hollow and Rensselaer NY locations as well as Basking Ridge, NJ.

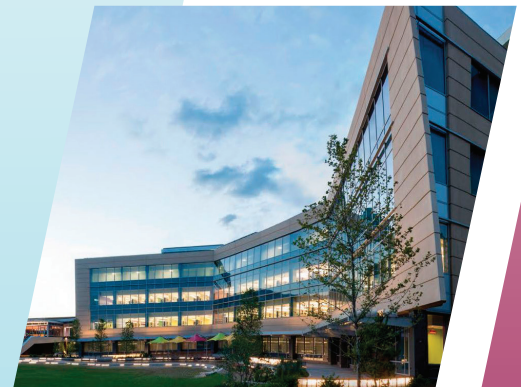

### A typical internship includes:

- › Getting paid for your hard work!
- › Hands-on project work that has an impact on the business
- › Engaging with Regeneron leadership
- › Networking events with other interns
- › Professional development sessions
- › End of internship presentations
- › Free food and swag

### To be considered, you must:

- › Be enrolled in, or accepted to, an academic program pursuing an Associate's, Bachelor's, Master's, or PhD (and be returning to school the semester following the internship).
- › Cumulative GPA of 3.0 is preferred.
- › Be able to commit to 40 hours per week for a minimum of 10 weeks from the end of May through the beginning of August.
- › Demonstrated leadership in areas such as campus activities, clubs, sports or the community is also preferred.

### Recruiting timeline:

Intern requisitions are posted on [www.careers.regeneron.com](http://www.careers.regeneron.com). Our positions are posted on our careers site from September until November each Fall. We interview and select students for summer internships from September through February each year.
